

I am writing in reference to MV Docket No 04-233. I am asking the FCC NOT to expand the use of LPFM which could greatly affect the FM translator 91.7 K-LOVE radio. I listen daily to 91.7 K-LOVE and would greatly miss not being able to make this connection. This FM broadcast affects this area in such a huge way...I can't imagine not being able to access it. When I travel I seek out the other FM translators that carry K-LOVE. This is one of the most positive influences in our area for radio. I hear children as well as adults comment on it's message. Please don't compromise FM radio and specifically good Christian radio like K-LOVE for LPFM. Thank you for your consideration. Nancy Swanson
